# WHAT IS PRAGATI STARTSMART

“Pragati StartSmart” is a pioneering, one-year integrated curriculum designed to bridge the gap between traditional education and the dynamic demands of the 21st century. This transformative offering is centered around immersive, activity-based learning, imparting essential skills crucial for future success. Encompassing entrepreneurship, technical proficiency, financial literacy, design thinking, soft skills, and personality development, our curriculum redefines the educational landscape.

1

Well-trained tutors serving as guides, mentors, and facilitators, ensuring students receive personalized attention and guidance throughout.

2

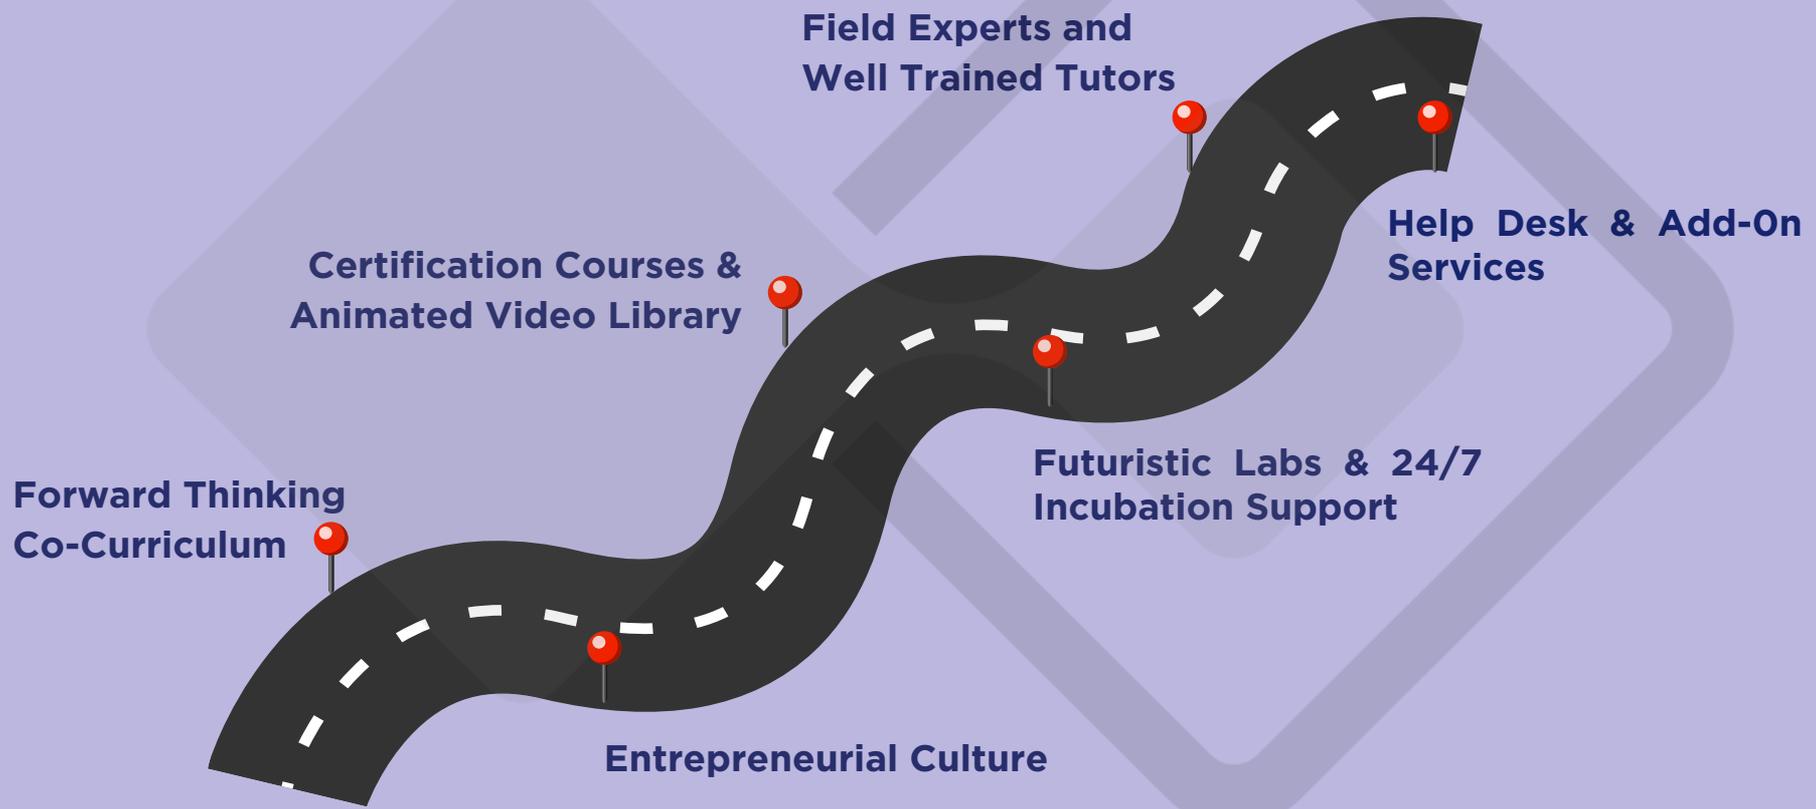

Designed to teach a range of 21st-century skills, preparing students for success in a changing world. Immersive activities that engage students and provide practical applications for learned skills.

3

Futuristic Think Labs aims to cultivate innovation and critical thinking by providing interactive experiences and collaborative projects in emerging fields like AI, robotics, and sustainable tech.
